Sonos (Line-In/Aux)

Last Modified on 05/12/2016 10:27 am EDT

The Sonos Connect, Connect Amp, Play 5 and Sonos Soundbar all have a Line-In feature allowing users to connect an auxiliary device such as an iPod to the Sonos ZonePlayer. This feature is currently accessible in total control and can be utilized in custom macros. The following reviews the steps for using the **Line-in option** on **Sonos** devices within a Total Control System.

To set use Line-in on Sonos:

1. In Step 12: Edit Macro By Room, select the 2-Way Module Command option.
