

# TKP-2000: Troubleshooting

Last Modified on 05/10/2016 1:03 pm EDT

## Troubleshooting the TKP-2000/

---

1. If the TKP-2000 is not connecting, power cycle it by unplugging the device from POE. Then rediscover.
2. If the unit still fails to connect, press and hold **main** and **mute** to get to settings screen. **Press** and **hold** factory default button and then click yes. After it defaults and reboots, rediscover it in **Step 6: Network Setup (URC device)**. Once it rediscovers, download the file to it.
