PIR-1: Connecting to the PIR-1

Connecting the PIR-1 for learning and testing. Also, how to update the firmware.

About:

This section will cover updating the driver for a **PIR-1**

Symptoms:

Receiving an error message such as "**fail to update**" when connecting a **PIR-1** to a PC. Accelerator will display an error message that reads "Please connect a **PIR-1**" when you select Learn in a **Device Driver Edit** window.

Confirm the computer has the driver installed for that device and make sure the device says "ready to use"

To update the firmware simply download to the device itself.
