How to Share a Music folder on a PC To Play On The SNP-2

Last Modified on 07/27/2016 4:51 pm EDT

This article outlines how to manually share music folders from the PC on the Network

To share folders, **a file path** may be required as well as a **username and password** (this option can be disabled under advanced network settings), if configured that way. Remember, **multiple folders** can be shared.

Note: It is ALWAYS recommended to restart the PC after Network changes have been made in windows.

1. Find the music **folder** on the PC using **Windows Explorer**.

2. **Right-click** on the music folder and select **Properties**.

3. Select the Sharing tab then press Share (the file share window opens).

4. Select **Everyone** within the drop down list and press **add**.

G 33 File Sharing			
Choose people on your network to share with Type a name and then click Add, or click the arrow to find someo	one.		
Everyone	•	Add	ו
Find people Charlene Quinones (CQuinones@UniversalRemote.com)	Owner	Level .	

5. Select Read from the Permission Level column then press Share.

Choose people on your network to share with	
ype a name and then click Add, or click the arrow to find son	neone.
	Add
Name	Permission Level
S Charlene Quinones (CQuinones@UniversalRemote.com)	Owner
😤 Everyone	Read 🗸 🗸 Read
	Read/Write
	Remove
	Nemove

6. Note the file path (it will need to be entered on the client interface) and select **Done**.

23. File Sharing	
Your folder is shared.	
You can <u>comail</u> someone links to these shared items, or <u>copy</u> and paste the link	ks into another program.
Individual Items	~
Tunes \\CHARLENE-URC\Users\cquinones\Music\iTunes	
Show me all the network shares on this computer,	
	Done

7. Select **Advanced Sharing** from the Sharing tab in the Properties window. **Note:** the file path is pointed out in **step 6**.
