

TRC-820 Shortcuts

Last Modified on 05/16/2016 10:52 am EDT

The TRC-820 is unique to the Total Control family because it contains a shortcuts button. This is a user edited shortcuts button meaning the customer can add/edit/delete these buttons whenever the customer wants.

The Boxed Triangle button on the top left of the TRC-820 next to the power button is there to create shortcuts. Shortcuts can be made for quick access to other options from within any activity/devices without going back to the main page.

Examples of what can be made into a shortcuts:

Timers (sleep)

Z-Wave functions (direct access to lights/locks/scenes...) Modes on UI7

Cameras

Power Menu

Activities

Process:

1. Click the boxed triangle
2. Click add
3. choose what activity/jump
4. customize position
5. Edit on the fly in the future
