Custom Graphics in Total Control

Last Modified on 09/24/2021 11:38 am EDT

Total Control offers various ways to use graphics. Within Accelerator it is possible to pre-select an image in the driver, add images to the software via the Expansion Pack, or custom images not provided by URC. Customization is a key component of Total Control and is a great way to provide the ultimate customer experience.

Please see the attached PDF file for Custom Graphics in Total Control

Total Control and Custom Graphics_version_4.pdf

or

Flat_Vector_Icons_v1.3.pdf 🖉

This article will be updated soon. Please refer to the newest Accelerator 3 articles listed below:
