

# Eaton/Cooper URC Vivido Z-Wave Device Parameters

Last Modified on 08/04/2016 4:55 pm EDT

Parameters are used to add and modify features of Z-Wave Devices. If you are using **URC Vivido lighting devices**, these parameters are **neatly laid out** under the **devices settings/device options**. If using other brands such as Cooper/Eaton, then please view the file below.

Examples of features that can be modified are:

Delayed Off Time

Panic Time

Dimmer Ramp Time

Kickstart

---

How To get to Device Parameters:

Please see the attached PDF file for available parameters on these devices.

[Device Configuration Parameters.pdf](#)

as
