# Accelerator Macro Colors Explained

Last Modified on 06/06/2023 5:13 pm EDT

URC Accelerator 3 software provides countless options to configure and optimize settings to achieve performance and flexibility for almost any application.

In a URC Macro, activities and macros are displayed using different colors to signify their status. This article details the various Macro text colors and their meanings.

In a URC Macro, activities and macros are displayed using different colors to signify their status.

The most common location to view this in Accelerator is in Steps #12-b, Macro by Room (see above image).

Macro Text Color	Status Description
Red	A custom button that has been added to the UI (user interface) and a Macro has not been created (blank)
Green	A custom button that has been added to the UI and a Macro has been modified
Blue	Accelerator generated Macro has been modified
Black	Accelerator generated Macro that has not been modified (original)

Additional Information & Resources:
