

Managing Your URC Dealer Offsite Programming Account (www.urcmcs.com)

Last Modified on 03/28/2023 2:41 pm EDT

Using www.urcmcs.com, dealers (specifically, Offsite Programming **ADMINISTRATORS**) now have access to the all-new “**Jobs Browser**” feature.

This feature was previously available at www.urcrms.com but that portal has been retired and the feature has been merged into the existing MCS/Offsite Programming account and portal mentioned above.

This article details **Managing Your URC Dealer Offsite Programming Account (www.urcmcs.com)** and using the available administrative options.

If you need to add a new user to a **URC Portal** account and need to know the process, please see the article [Adding a New User to Your URC Dealer Portal Account](#) .

Please be aware that an *Offsite Programming **ADMINISTRATOR** account must first exist before these options are available.*

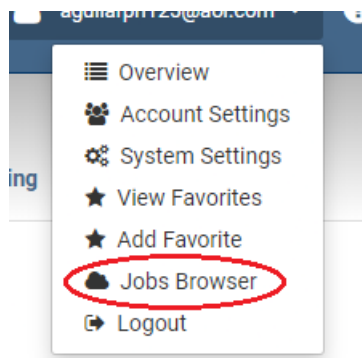

If you do not have a Dealer Offsite Programming account or are not sure if one exists, please contact URC via Email at: UrcRegistration@urc-automation.com. You can also contact your Territory Account Manager.

If you need to register for a URC Offsite Programming account, please download the form here: [Register for an Offsite Programming Account](#)

Please Email the completed form to: UrcRegistration@urc-automation.com

Managing Your URC Dealer Offsite Programming Account

1. Log into your www.urcmcs.com account.
2. The **Jobs Browser** option will be located in drop-down menu by clicking on the dealer’s email as shown below:

3. The options under the Jobs Browser provide the Offsite Programming **Admin** the ability to

perform the following functions:

Access: Grant or disable **Offsite Programming User Access** to their installers for a particular job/project.

Info: Allows the user to add job info—allows admin to add/edit job/file comments.

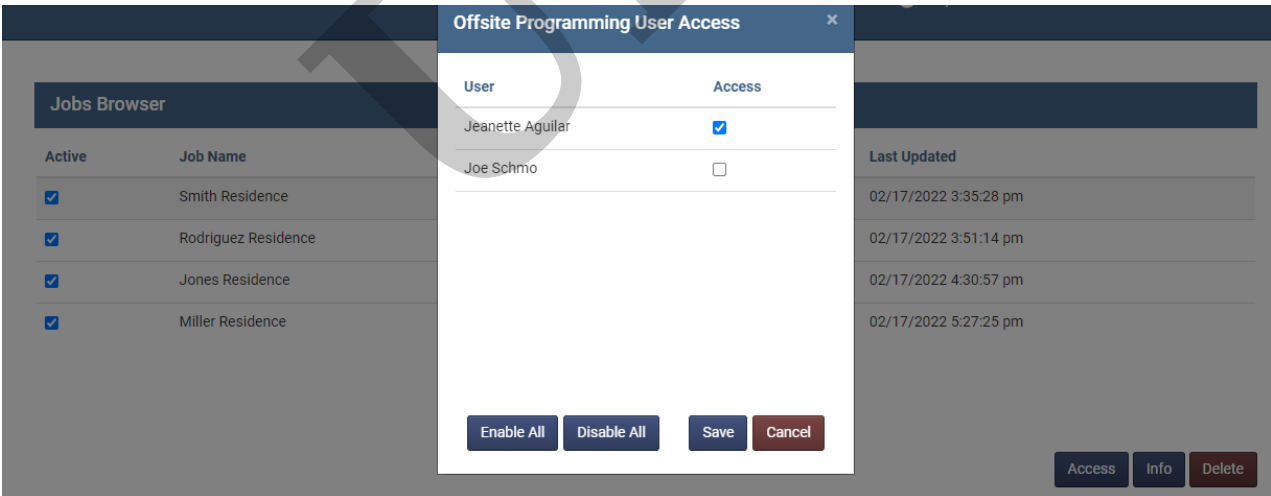

Delete: Allows the admin to delete jobs currently registered to the dealer account.

Jobs Browser			
Active	Job Name	Authorized Installer	Last Updated
<input checked="" type="checkbox"/>	Smith Residence	Jeanette Aguilar	02/17/2022 3:35:28 pm
<input checked="" type="checkbox"/>	Rodriguez Residence	Jeanette Aguilar	02/17/2022 3:51:14 pm
<input checked="" type="checkbox"/>	Jones Residence	Jeanette Aguilar	02/17/2022 4:30:57 pm
<input checked="" type="checkbox"/>	Miller Residence	Jeanette Aguilar	02/17/2022 5:27:25 pm

4. **Access:** Highlighting a job and clicking on the **"Access"** button allows you to grant or disable **Offsite Programming User Access** to a User/installer for a particular job.

This can be used if you need to grant access to an additional employee (*user*) or if an employee leaves the company and you don't want them to have remote programming access to a clients system (see the two example images below):

User	Access
Jeanette Aguilar	<input checked="" type="checkbox"/>
Joe Schmo	<input type="checkbox"/>

Select the additional User/installer(s) that you want to have access to the job.

User	Access
Jeanette Aguilar	<input checked="" type="checkbox"/>
Joe Schmo	<input checked="" type="checkbox"/>

Once you hit save and refresh the page, you will see that the additional User/installer now has access to the job listed under *Authorized Installer*:

Note: After changing access rights, you may need to log out and back in to see the updated projects in the Jobs Browser.

Active	Job Name	Authorized Installer	Last Updated
<input checked="" type="checkbox"/>	Smith Residence	Joe Schmo, Jeanette Aguilar	02/17/2022 3:35:28 pm
<input checked="" type="checkbox"/>	Rodriguez Residence	Jeanette Aguilar	02/17/2022 3:51:14 pm
<input checked="" type="checkbox"/>	Jones Residence	Jeanette Aguilar	02/17/2022 4:30:57 pm
<input checked="" type="checkbox"/>	Miller Residence	Jeanette Aguilar	02/17/2022 5:27:25 pm

5. **Info:** Highlighting a job and clicking on the "Info" button allows you to add/edit job/file comments. This can be used when making notes about system updates or when making changes requested by the client.

Job Info		
User	Job Comments	Last Updated
Jeanette Aguilar	Updated Heos module, created Urc Scenes for Lighting	12/22/2021 8:59:18 pm

Add Comment Edit Delete

6. **Delete:** Allows the admin to delete jobs:

Jobs Browser			
Active	Job Name		Last Updated
<input checked="" type="checkbox"/>	Smith Residence	Joe Schmo, Jeanette Aguilar	02/17/2022 3:35:28 pm
<input checked="" type="checkbox"/>	Rodriguez Residence	Jeanette Aguilar	02/17/2022 3:51:14 pm
<input checked="" type="checkbox"/>	Jones Residence	Jeanette Aguilar	02/17/2022 4:30:57 pm
<input checked="" type="checkbox"/>	Miller Residence	Jeanette Aguilar	02/17/2022 5:27:25 pm

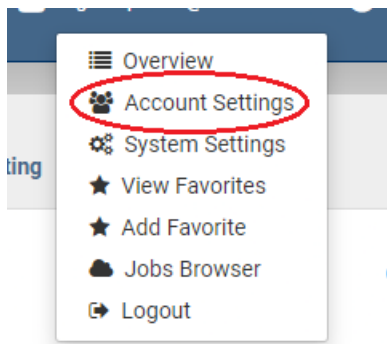

Dealer Admin Account

Keep in mind that Dealer Admins already have access to adding users through www.urcmcs.com. This is located under the Account Settings option after logging into your URC MCS account.

Step 1. Administrator will log in to www.urcmcs.com

Step 2. Click the arrow on the top next to the email address

Step 3. Click on "Account Settings"

Step 4. Click **Add New User**

You can add a new user to your MCS account by clicking the button as shown below:

Step 5. Administrator will fill out all information for the new user. For the account type, they will select "Dealer Installer/Programmer" and click "Add".

Create New User

First Name:

Last Name:

Email :

Confirm Email:

Phone:

Account Type:

To finalize the process for the installer/programmer account, the newly-added installer should open the email they have received (within 24 hours) and set a password for their new Offsite Programming/MCS account.

The installer will now have access to adding/editing/downloading to sites remotely via the Sign in & Connect option in the Communications tab of Accelerator. They will also be able to monitor these jobs via the MCS website (www.urcmcs.com) with the same credentials.

Note: The **URC Portal Account** and the **URC MCS Offsite Programming Account** are separate portals.

Additional Information & Resources:
