Using XL Graphics on URC Interfaces Last Modified on 08/09/2023 6:06 pm EDT

URC touch screen keypads and mobile apps now have a new Main Menu "XL" display mode available in the Device Properties\Custom User Interface settings section.

This article details how to configure and use the Main Menu "XL" display mode in the Accelerator software.

· · ·	&U:C
Fa VOL CH WUTE PREV	mily Room
	TDC-5100 Main Menu XL Graphics

This Main Menu "XL" display mode is the default selection on the TDC-5100 and may be selected on these devices:

TDC-5100 TKP-5600 TDC-7100 TKP-7600 TKP-8600 TDC-9100 TKP-9600

Android Phone and Android Tablet -URC Mobile 2 app version 1.6.31.0 (minimum version required) iPhone Mobile and iPad Mobile -URC Mobile 2.5 app version 1.2.137 (minimum version required)

Note: Accelerator 3 Update Version 3.03.0509.1 is the minimum software version required to use XL graphics. This update was made on 05/23/2023.

PLEASE NOTE: URC very strongly recommends that you upgrade systems from a local network connection if they have not been updated since July 5, 2022 (version 3.02.0628.1) locally at least once.

Please visit the Accelerator 3 Update History page for additional information.

Main Menu "XL" Display Mode Update Procedure

To change the Main Menu to the XL graphics style, complete the following steps:

Step #1 – Select the desired URC device in the project tree. This will need to be done individually for all supported user interfaces except for the TDC-5100. XL mode is selected by default on that device:

Step #2 – Go to Step #7-Properties Manager. In the Custom User Interface section, you will have the option to select Ribbon, Grid or XL. Select the XL radio button:
